

# JazzieUI Build Tracker

Building Beauty in Code, soft girl tech aesthetic, with deadlines to keep you honest.

GitHub: [github.com/JazzieUI](https://github.com/JazzieUI)

Start: Oct 28, 2025

Finish: Jan 19, 2026

## Progress Dashboard

Mark JavaScript when implemented, mark TypeScript later if you convert. Use 'Status' for your workflow notes.

Component	Status	JavaScript 	TypeScript 	Date Started	Date Completed
Button Variants		<input type="checkbox"/>	<input type="checkbox"/>		
Input Fields		<input type="checkbox"/>	<input type="checkbox"/>		
Modal / Popup		<input type="checkbox"/>	<input type="checkbox"/>		
Card Component		<input type="checkbox"/>	<input type="checkbox"/>		
Navbar & Footer		<input type="checkbox"/>	<input type="checkbox"/>		
Alert / Toast Message		<input type="checkbox"/>	<input type="checkbox"/>		
Gradient Button Set		<input type="checkbox"/>	<input type="checkbox"/>		
Avatar + Badge Component		<input type="checkbox"/>	<input type="checkbox"/>		
Soft Toggle Switches		<input type="checkbox"/>	<input type="checkbox"/>		
Skeleton Loader		<input type="checkbox"/>	<input type="checkbox"/>		
Tab Navigation Bar		<input type="checkbox"/>	<input type="checkbox"/>		
Custom Scrollbar		<input type="checkbox"/>	<input type="checkbox"/>		
Theme Switcher		<input type="checkbox"/>	<input type="checkbox"/>		
Reusable Form Builder		<input type="checkbox"/>	<input type="checkbox"/>		
Pagination Component		<input type="checkbox"/>	<input type="checkbox"/>		
Dynamic Table Component		<input type="checkbox"/>	<input type="checkbox"/>		
Mini Dashboard Widget		<input type="checkbox"/>	<input type="checkbox"/>		
Reusable Modal Hook (useModal)		<input type="checkbox"/>	<input type="checkbox"/>		

## Milestone Goals by Date

- Wave 1 (Core) → Due **Nov 7**
- Wave 2 (Soft Girl UI) → Due **Nov 18**
- Wave 3 (Smart & Scalable) → Due **Dec 1**

## Reflection Prompts per Wave

- What did I learn about clean UI structure?
- Which part frustrated me most, and how did I overcome it?
- What would I refactor if I rebuilt this from scratch?

### Notes & Design Ideas

Color palette (soft girl tech): blush #FADADD, cream #FFF8F6, deep rose #C48B9F, accent #D8A7A7

Sketch UI ideas, hex codes, component behavior, or copy snippets...

### Final Showcase Plan

When JazzieUI is complete:

1. Take clean screenshots of each component in light + dark (if applicable).
2. Host demo on Vercel, Netlify, or GitHub Pages.
3. Add usage examples + prop documentation to README.
4. Create a soft girl styled landing page that links to your GitHub repo.

### Quick Launch Checklist

- ☒ 5+ components built and styled
- ☒ README usage examples
- ☒ Live demo link
- ☒ Screenshots for portfolio

“Code like a creator, build like a boss.” — JazzieUI
